

# Explore

Learning Through Nature at Heatree Activity Centre

## Environmental Discovery

A fascinating and practical deep dive into environmental education with hands-on outdoor adventures designed to develop key life skills

## Wild and Scenic Location

A fun and engaging way of learning about habitats and ecosystems in the heart of Dartmoor National Park in South West England

## Connecting Pupils with Nature

Ideal for larger groups, the **Explore Residential** offers a memorable outdoor learning experience that supports curriculum goals, while encouraging pupils to respect and care for the natural environment.

As pupils explore local habitats, they develop their environmental awareness and sense of responsibility while building effective teamwork skills. Christian themes are woven throughout the activity sessions, linking these experiences together through inspiring daily assemblies. Choose from activities such as:

- **Cycle Factory** - learn all about the water, soil and air cycles.
- **Earth Walk** - a creative and mindful exploration in nature.
- **Going Global** - a fast-paced world trading game exploring global inequality and sustainability.
- **Freshwater** - explore life in a local stream and study fascinating freshwater ecosystems.
